

Why consider Tremco Barrier Solutions as your foundation barrier systems partner?

We deliver more value per gallon!

PRODUCTS THAT PERFORM! KEEP BASEMENTS DRY!

There is only one essential function that waterproofing provides – a dry, livable, healthy basement. Tremco Barrier Solutions is the **ONLY** manufacturer that can claim a quarter of a century of successfully keeping basements dry. In fact, we guarantee it!

PRODUCTS WITH EXCEPTIONAL STABILITY!

Our manufacturing process ensures that every gallon of waterproofing product can withstand the rigors of packaging, shipping, storage and spray, with no degradation of product quality. Every Tremco Barrier Solutions gallon is ready to spray when YOU'RE ready to spray. No clumps...no clogs...no breaking. And every gallon is manufactured in an ISO 9001 certified facility.

SPRAYS AS SMOOTH AS SILK!

When it comes time to install Tremco Barrier Solutions' products, you will be amazed at the efficiency and productivity of your spray crews. Whether you're spraying TUFF-N-DRI® or WATCHDOG WATERPROOFING®, every gallon goes through your pumps smoothly, evenly and consistently.

EXCEPTIONAL HANG STRENGTH! BUILDS 60 MILS ON THE WALL!

Waterproofing code requires a cured membrane of 40 mils. Only a waterproofing membrane that measures to 60 mils wet on a notch film gauge will ensure a 40-mil cured barrier. With Tremco Barrier Solutions' products, every gallon of waterproofing is manufactured to a specification that quickly and easily builds and hangs to 60 mils on the wall...right where it's needed. Not 60 mils on the footer, like some products...not 60 mils with 3 or 4 passes like others. And no need for co-spray to build to 60 mils.

BUILDER RECOGNIZED AND PREFERRED BRANDS!

Let's face it...it's easier to sell brands that your builders know and trust. Only Tremco Barrier Solutions brands – the TUFF-N-DRI Basement Waterproofing System and WATCHDOG WATERPROOFING – have the brand recognition and preference that give the builder the confidence to choose you as their foundation barrier specialist.

only Tremco Barrier Solutions
can deliver on the **promise** of more value per gallon.

WATCHDOG
WATERPROOFING®

Why consider
Tremco Barrier Solutions
as your
foundation barrier
systems partner?

WATCHDOG
